

MARY SCHROTH

Class of 1981

**Carl and Frances B. Schroth
Lecture Series Fund**

**Mary Margaret Schroth
Endowed Scholarship Fund**

**Mary Margaret Schroth
Research Endowment Fund**

What was your goal in establishing these funds?

I have established a lecture fund (The Carl and Frances B. Schroth Lecture Series) with the goal of ensuring that national and international speakers can be brought to campus to interact with students about topics of current interest and importance, particularly with regard to the environment and climate change. My sister Patricia Schroth has subsequently joined me in providing funds for this series.

What was something you never expected as an alum of MSU?

How easy it is to find another MSU connection, whether it be professionally or at a concert or theme park.

In what ways are you using your LBC education in your professional life to contribute to society?

I recently retired after many years of private and public-school teaching. I believe that on a daily basis I was able to show my students how important knowledge of STEM was to society and to their everyday lives.
